YOUR FRIENDS AT THE ZOO SAY...

IMMUNIZE BY TWO!
Ellie the Elephant says...
VACCINES KEEP YOU WELL

Tommy the Turtle has more to tell...
Vaccines keep you from diseases like these...

- Mumps
- Polio
- Lockjaw
- Diphtheria
- Measles
- Meningitis
- Hib
- German Measles
- Whooping Cough
- Chickenpox
- Rotavirus
- Pneumococcal Disease
- Hepatitis A & B
- Influenza
...Leonard the Lion knows they are truly a breeze!
Sally the Snake knows vaccines keep you feeling better...

...so just visit your Doctor or Local Health Center!
Join in the chorus with all your friends at the ZOO...

IMMUNIZATIONS BY AGE TWO ARE IMPORTANT TO YOU!
An immunization registry keeps shot records secure, Whenever you need them they'll be there for sure, So make sure your doctor or nurse does their part, By storing your child's records in both the registry and chart.
A Message for Moms, Dads, and Grandparents too...

Children also need a medical home... to help them stay healthy while they grow.

Regular visits to a doctor or nurse can help with what ails them and help mend their hurts.

You deserve a round of applause and all the credit goes to you... for making sure your babies and toddlers get all their vaccines by age TWO!
every child by two!

Children Need Vaccinations at the Following Ages:

- Birth
- 2 Months
- 4 Months
- 6 Months
- 12-23 Months
- 4-6 Years
- 11-12 Years

Additionally, influenza (flu) vaccines is recommended each year for everyone 6 months and older.

Vaccines recommended by the Advisory Committee on Immunization Practices protect children against diphtheria, tetanus (lock jaw), polio, measles, pertussis (whooping cough), mumps, rubella (German measles), haemophilus influenzae type b, hepatitis A & B, Varicella (chickenpox), invasive pneumococcal disease, invasive meningococcal disease, rotavirus and influenza (flu).

Be sure to complete any series of immunizations once started. One or two doses of a series is not adequate protection. Older children may need additional vaccines or booster shots. Call your doctor of local health clinic for more information.
The following chart lists the names of the vaccines recommended for your child and the diseases that they prevent.

<table>
<thead>
<tr>
<th>Disease Name</th>
<th>Vaccine Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>Measles</td>
<td>Measles Vaccine (contained in MMR vaccine)</td>
</tr>
<tr>
<td>Mumps</td>
<td>Mumps Vaccine (contained in MMR vaccine)</td>
</tr>
<tr>
<td>Rubella (German Measles)</td>
<td>Rubella Vaccine (contained in MMR vaccine)</td>
</tr>
<tr>
<td>Diphtheria</td>
<td>Diphtheria Toxoid (contained in DTap, DT, Tdap and Td vaccines)</td>
</tr>
<tr>
<td>Tetanus (Lock Jaw)</td>
<td>Tetanus Toxoid (contained in DTap, DT, Tdap and Td vaccines)</td>
</tr>
<tr>
<td>Pertussis (Whooping Cough)</td>
<td>Pertussis Vaccine (contained in DTap and Tdap vaccines)</td>
</tr>
<tr>
<td>Hepatitis B</td>
<td>Hepatitis B Vaccine (also known as Hep B vaccine)</td>
</tr>
<tr>
<td>Hib</td>
<td>Haemophilus Influenzae type b (Hib) Vaccine</td>
</tr>
<tr>
<td>Influenza (Flu)</td>
<td>Influenza Vaccine</td>
</tr>
<tr>
<td>Polio</td>
<td>Inactivated Polio Vaccine (also known as IPV vaccine)</td>
</tr>
<tr>
<td>Varicella (Chickenpox)</td>
<td>Varicella Vaccine</td>
</tr>
<tr>

THE CAMPAIGN TO IMMUNYZE ALL NEW YORKERS

Follow us on Facebook at
www.facebook.com/immunyze

Brought to you by

County Health Officials of New York
www.nysacho.org

The Campaign to ImmuNYze all New Yorkers is an initiative of the County Health Officials of New York (NYSACHO) to bring together patients, parents, providers and campaign partners to heighten awareness of the need to immunize throughout life—from infancy to senior years.

Funding for this campaign was made possible in part by the Centers for Disease Control and Prevention. The views expressed in written materials do not necessarily reflect the official policies of the Department of Health and Human Services.
